Quality Policy

B-S1-POL.0001

BOURBON provides a wide range of services, adapted to the needs of Energy & Shipping industries' actors, and is open to new challenges, in all areas of operations. We daily serve the BOURBON Vision to supporting offshore energies development as a reference partner, building sustainable and innovative maritime solutions.

HIGH STANDARDS

- Ensure consistent implementation of our Management System across all entities and activities.
- Provide safe, reliable, and efficient operations meeting customer expectations.
- Identify and control operational risks to protect people, assets, and the environment.
- Adapt to customer requirements, market and local constraints
- Foster early reporting of non-quality events and ensure their treatment through structured analysis, corrective actions, and shared lessons learned.

AMBITION

- Be a trusted and long-term partner for our customers
- Monitor performance through relevant indicators and challenge our practices to progress continuously.
- Foster innovation, simplification, and efficiency in processes, tools, and ways of working.
- Support teams and new entities in the deployment and improvement of our processes and quality management practices.

TEAM SPIRIT

- Maintain open communication and feedback to build a shared culture of excellence.
- Promote collaboration and mutual support across all teams to strengthen a shared quality culture and ensure consistent operational excellence.
- Develop skills, empowerment, and collaboration to strengthen collective success.
- Integrate our subcontractors and third parties into our activities and vision

Our Management System has the full support of BOURBON Executive Management and staff.
