

## RESPECT SAFETY BARRIERS TO AVOID DOMESTIC ACCIDENTS.

Domestic Accidents often involve children because they do not perceive all the risks. However, when there is a breach in good practice or safety barriers, domestic accidents can happen to any of us.

In this safety post we reflect on how a simple breach in an obvious safety barrier could have led to a serious injury to an employee in his accommodation.

**THE SAFETY POST IS BASED ON REAL EVENTS - PLEASE PRINT, POST AND DISCUSS THIS ISSUE!**

## RESPECT SAFETY BARRIERS TO AVOID DOMESTIC ACCIDENTS.

### DO:

- Apply LMRA if discovering any products in a container without labeling.
- Store chemicals and other dangerous products in a dedicated and identified place.
- Remove and safely dispose of all stored containers of products without labeling.

### DON'T:

- Ever use water bottles to contain chemicals or other dangerous products.
- Forget that containers from the makers are labeled and designed to protect people, the product, and the environment.
- Leave chemicals or other dangerous products around after using them.
