

**SAFETY**  
**TAKES ME HOME**

# SafetyPOST

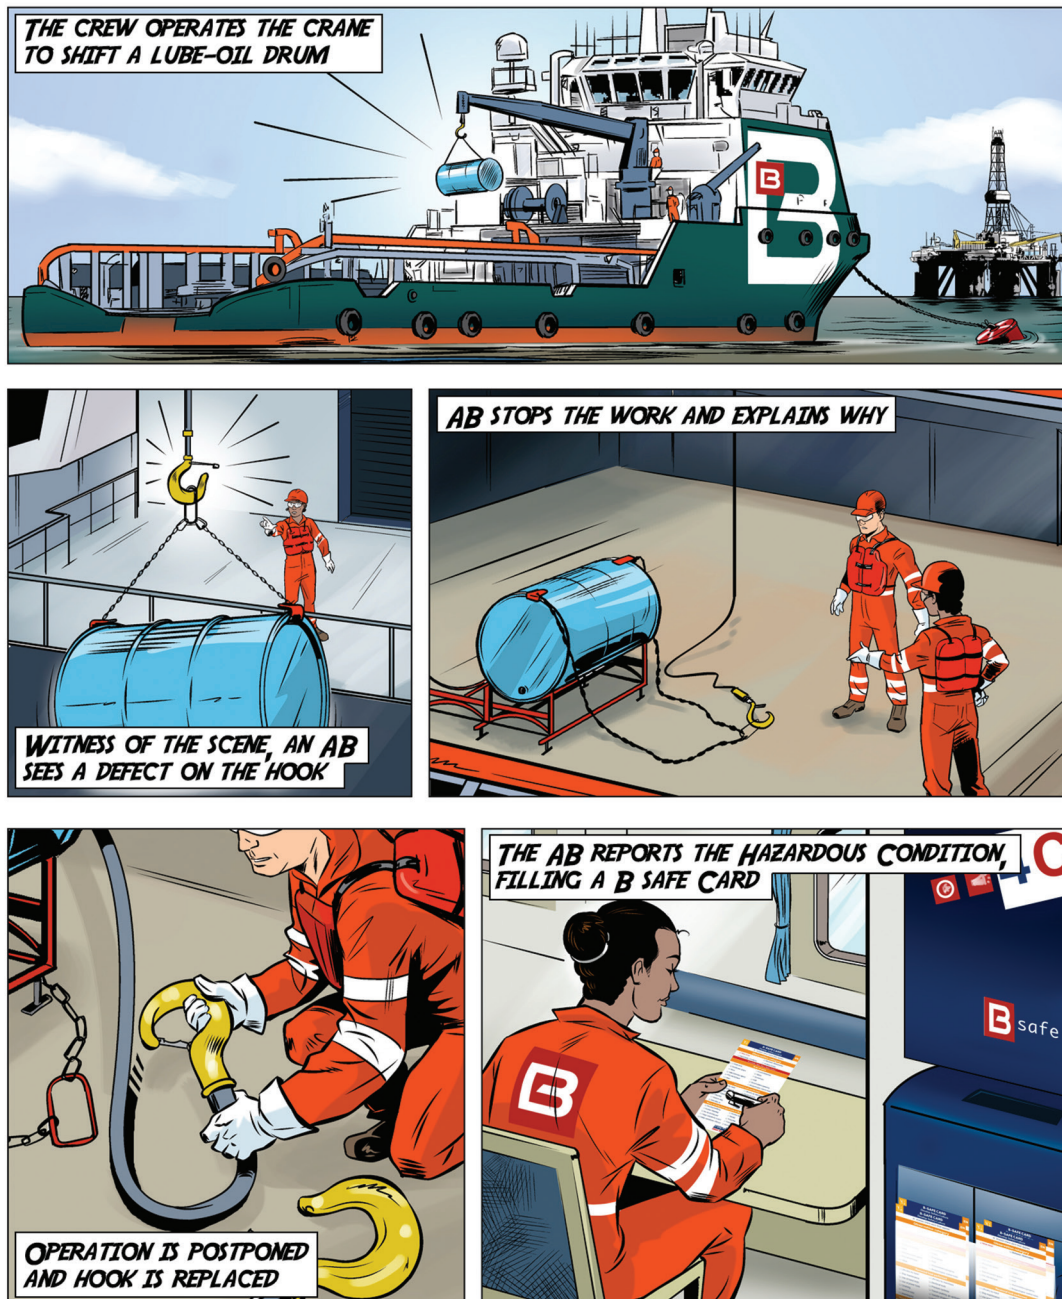

May 2016

## BE PROACTIVE!

In this 4<sup>th</sup> edition of Safety Post, we reflect on two proactive behaviors:

- Where Stop Work Authority remains one of the last barriers that can prevent an incident.
- Where the use of B Safe card formalizes safety commitment of our crews, and helps Masters and Managers ashore to identify hazards and risk trends.

**Do you remember your last Stop Work authority and B Safe card issuance?**  
**Keep in mind that you will always be the ultimate safety barrier that can prevent an accident.**

## BE PROACTIVE!

### DO:

- Respect the Pre-task Planning steps.
- Share your safety knowledge with your peers.
- Use Your Stop Work Authority.

### DON'T:

- Neglect Last Minute Risk Assessment (LMRA).
- Fall into the trap of complacency.
- Forget to issue a B Safe Card.
