

KEEP ATTENTION ON SAFETY

Complacency, over confidence and lack of attention can create hazardous situations. This edition of Safety Post shares actual events and aims to remind us to avoid complacency and maintain attention on safety. The two high potential near miss examples illustrate the importance of maintaining safety/risk awareness.

KEEP ATTENTION ON SAFETY

DO:

- Assess risk in all work activities and surroundings.
- Ensure risk is prioritised and managed in all tasks.
- Stay focused on risk awareness and speak up when needed.
- Discuss, apply and share good safety practices.

DON'T:

- Allow risk to exist in any work activities or surroundings.
- Forget that a high proportion of accidents occur during routine tasks.
- Under-estimate risks by being over-confident or complacent.
