

WATCH YOUR HANDS

This first Safety Post looks at an avoidable hand injury. It is inspired by a real case that happened in West Africa in 2015. Such injuries can happen anywhere when we lose awareness.

Watch your hands and B-Safe!

AVOID BEING AN ACCIDENT VICTIM!

DO

- Maintain awareness at all times to potential hand injury hazards.
- Review "Safety Takes Me Home" guidance for avoiding hand injuries.
- Discuss with your colleagues - how to avoid hand injuries.

DON'T

- Place your hands or fingers in "pinch points".
- Assume something is safe without first checking.
- Start any manual work without wearing the correct protective gloves.
